Annotation to the work program of the discipline

Name disciplines	Буровой супервайзинг / Drilling Supervising
Brief content	The concept of supervising. Functions of a drilling supervisor. The concept of organizing work on supervising. Drilling Supervising Service. Requirements for the design of oil and gas wells. Requirements for the provision of information from the drilling facility. Requirements for information and engineering support. Supervision of industrial and environmental safety, labor protection and the environment. Supervising drilling and service contractors. Interaction between the client and contractors.
results development disciplines	owns the skills of managing production processes using modern equipment and materials. is able to ensure the implementation by contractors of design solutions for the technological processes of oil and gas production; owns information about the list of works assigned to specific contractors, incl. service, organizations, drilling, oil and gas and auxiliary equipment.
labor input, cu	3
Forms reporting (including semesters)	Graded (grading), 7 semester
List of basic and additional literature necessary for mastering disciplines	
Main literature	Fundamentals of supervisory control during the repair and reconstruction of oil and gas wells Electronic resource / Vaganov Yu. - Approved by the Educational and Methodological Association of Higher Education Institutions of the Russian Federation for Oil and Gas Education as a teaching aid for students of higher educational institutions studying in the bachelor's degree program "Oil and Gas Business". - ISBN 978-5-9961-0877-0, unlimited copies Technology of drilling oil and gas wells. In 5 volumes. T.1
	Electronic resource: Textbook for university students / SV Senyushkin [and others]; ed. V. P. Ovchinnikova. - Tyumen: Tyumen Industrial University, 2017. - 576 p. - The book is in the premium version of EBS IPR BOOKS. - ISBN 978-5-9961-1328-6, 978-5-9961-1329-3, unlimited copies
Additional literature	Kulchitsky V.V. Drilling supervising. Textbook for universities. M.: ITs RGUNG, 2018 – 315 s Federal norms and rules in the field of industrial safety "Safety rules in the oil and gas industry", approved by order of the Federal Service for Environmental, Technological and Nuclear Supervision dated March 12, 2013 No. 101.
