Summary of the work program of the discipline

Name of the discipline	Organization of patent search in biotechnology
Summary	science as a system of developing knowledge forecasting the development of science and technology methods of scientific research the importance of science in the formation of a modern specialist classification and organization of scientific research fundamental and applied research, development structure of scientific research. experimental studies, analysis and comparison of results, final conclusions, implementation of results. scientific and technical information. fundamentals of patenting.
The results of mastering the discipline	Has an idea of the production technology and organization of production and technological processes for the production of biotechnological products for the food industry; Registration of changes in technical and technological documentation during the adjustment of technological processes, control systems for the production of biotechnological products for the food industry; Understands the methods of calculation and selection of technological equipment for the organization and conduct of experiments on the stages of introduction of new technological processes production of biotechnological products for the food industry
Labor intensity, ie.	43.e.
Reporting form	Test
The list of basic and additional literature necessary for the development of the discipline	
Basic literature	1. Rozhnov A.B. Patent research. Patent situation analysis [Electronic resource] : textbook / A.B. Rozhnov, V.Y. Turilina. — The electron.text data. — Moscow : MISiS Publishing House, 2015. — 75 p. — 978-5-87623-977-8. — Access mode: http://www.iprbookshop.ru/64191.html 2. Protection of intellectual property [Electronic resource] : textbook for bachelors / I.K. Larionov [et al.]. — Electron.text data. — M. : Dashkov and K, 2015. — 256 p. — 978-5-394-02184-8. — Access mode: http://biblioclub.ru/index.php?page
Additional literature	1. Matsukevich V.V. Fundamentals of intellectual property management [Electronic resource] : educational and methodological complex. Textbook / V.V. Matsukevich, L.P. Ma-tyushkov. — The electron.text data. — Minsk: Higher School, 2013. — 224 p. — 978-985-06-2205-1. — Access mode: http://www.iprbookshop.ru/20245.html 2. Sychev, A. N. Protection of intellectual property and patenting [Electronic resource] : textbook / A. N. Sychev. — The electron. text data. Tomsk : Tomsk State University of Control Systems and Radioelectronics, El Content, 2012. — 160 c. — 978-5-4332-0056- 2. — Access mode: http://www.iprbookshop.ru/13880.html 1. Matsukevich V.V. Fundamentals of intellectual property management [Electronic resource] : educational and methodological complex. Textbook / V.V. Matsukevich, L.P.
