Discipline abstract

Name	Инженерная компьютерная графика / Computer Engineering Graphic
disciplines	
Content	Introduction to the discipline. Design documentation. Rules for drawing up drawings in accordance with ESKD. Registration of design documents with the help of graphic editors. Kinds. Axonometric projections. The cuts are simple and complex. Sections. Removable connections. Permanent connections. Sketching. Assembly drawing.
The results of mastering the discipline	Depicts spatial objects on a plane; solves various engineering and geometric problems for products with complex surface shapes, reads and executes drawings of parts and structural elements.
Labor intensity, cu	3
Reporting Forms	Graded (grading) 3 semester
